## FEMCO Forges Service Partnership with Metso

Pittsburgh, PA – April 1, 2020 – FEMCO Holdings, LLC and Metso have finalized an agreement to provide service support to recycling customers throughout North America.

As a Metso authorized service provider, FEMCO’s experienced staff will bolster service offerings for Metso’s broad metal recycling equipment line of shredders, pre-shredders, shears, balers, briquetters and loggers.

FEMCO, a leading national machine repair, field service, and rebuild company, has been in the scrap, demolition and recycling industry for more than 50 years and has a strong reputation for quality, reliable and responsive services.

“We’ve had a project-based relationship with FEMCO, and quickly recognized how well their expertise, professionalism and high standards fit with our values,” said Mark Haire, Vice President, Metso Metal Recycling, Americas. “With a mutual commitment to customer success, this formalized relationship elevates our emergency repair services and expands our lifecycle service programs.”

FEMCO’s national footprint of facilities and service equipment ensures the right equipment and resources to meet customer field service needs, including 24-hours-a-day, 7-days-a-week emergency response.

“We are very excited about this partnership and the opportunity to align with an industry leading OEM like Metso,” said Brad Kerkhoff, Vice President Sales & Marketing, FEMCO Machine. “Together, we will provide customers with world-class customer support throughout the lifecycle of their equipment.”

### **Metso Metal Recycling**

Through robust brands, extensive engineering innovation and unwavering commitment to customer success, Metso maintains the largest installed base of metal recycling equipment in the industry. Customers range from large multinational scrap yards and leading players in the automotive industry to steelworks and local family-run scrap yards.

Bolstered by Metso’s corporate resources and global support programs, today’s Metso Metal Recycling continues to build upon the proven success of established brands including Lindemann and Texas Shredder. Metso’s solutions are designed with state-of-the-art technology and the highest safety standards to help drive sustainable improvements in performance and profitability within our customers’ businesses.
