FEMCO finalizes Authorized Service Facility Partnership with Sennebogen LLC for the state of Colorado

Pittsburgh, PA - July 15th, 2020 – FEMCO Holdings, LLC and Sennebogen LLC have finalized an agreement to provide parts and service support to Sennebogen customers within the state of Colorado.

As the Sennebogen Authorized Service and Parts dealer for the state of Colorado, FEMCO's experienced field service and shop staff teams bolster service offerings across Sennebogen's existing CO footprint as well as support commissioning and setup of new equipment, scheduled and preventative maintenance services, parts inventory, re-builds, and emergency repair services.

FEMCO, a leading national machine repair, field service, and rebuild company, has a long history in the scrap, demolition, recycling, aggregate, and industrial industries for more than 50 years with a strong reputation for quality, reliability, and responsive services. FEMCO has five facilities across the United States with shop and field service capabilities.

We are excited to have FEMCO join our network of partners said Constantino Lannes, President Sennebogen LLC. FEMCO's footprint will allow customers in CO to have broader access to emergency repair, machine commissioning and preventative maintenance."

FEMCO's footprint of facilities and trained field service technicians enables us to have the right equipment and resources to meet customer's field service needs, including 24-hours-a-day, 7-days-a-week emergency response.

"We are thrilled with the opportunity to support Sennebogen in CO with natural synergy focusing on the markets FEMCO has the most expertise in," said Brad Kerkhoff, Vice President Sales & Marketing, FEMCO Machine Company. "Together we will provide customer's world class service from commissioning to preventative maintenance, emergency 24/7 service, and rebuilds, with the focus of maximizing equipment up-time and customer support throughout their equipment lifecycle."

Sennebogen LLC

Sennebogen is one of the leading global manufacturers of machines in the material handling and crane technology sectors. We offer the world's biggest range of material handlers, electric material handlers, telehandlers, crawler cranes, duty cycle cranes and port cranes.

Efficient, robust and easy to maintain - for over 65 years we have been producing "Made in Germany" quality. Our strengths are modular solutions and specialized customer-specific machines. We give everything to ensure that SENNEBOGEN meets your every need!
